EDUCATION

Government Polytechnic Nandurbar

Diploma in Computer Engineering
2021 - 2024

Parul University

BTech CSE
2024 - 2027

SKILLS

Skills: JS · TS · React · Next.js ·

Express · Node.js · Python ·

LangChain · LangGraph · Postgres ·

Prisma · C · Docker · Kubernetes ·

AWS · Git

LANGUAGE

English ▬▬▬▬▬▬

Hindi ▬▬▬▬

ABOUT ME

I am Karan Marathe, a dedicated B.Tech Computer Science Engineering student at Parul University with strong skills in full-stack development, cloud technologies, and modern AI/LLM frameworks. I enjoy building efficient, user-focused applications and exploring emerging technologies that solve real-world problems. With hands-on experience in JavaScript, TypeScript, React, Next.js, Node.js, PostgreSQL, and tools like Docker, Kubernetes, and AWS, I focus on writing clean, maintainable code. I am also passionate about AI automation, working with LangChain and LangGraph to create intelligent workflows.

I am a fast learner, highly adaptable, and always eager to take on challenging projects that help me grow and contribute to the team.

EXPERIENCE

Parul University   2024 – 2025

Full-Stack Developer — Personal & Academic Projects

- Developed multiple web applications using React, Next.js, Node.js, Express, and PostgreSQL.
- Built clean and responsive UIs with JavaScript, TypeScript, and modern component libraries.
- Worked on cloud deployment using AWS services, Docker containerization, and Kubernetes basics.

Parul University   2024 – 2025

Full-Stack Developer — Personal & Academic Projects

- Created AI-driven tools and automation systems using Python, LangChain, and LLM frameworks.
- Built custom chatbots and workflow pipelines to solve real-world problems.
